BusinessWeek Names MAR Systems One of America's Most Promising Startups

BusinessWeek recently named MAR Systems one of "America's Most Promising Startups" for making industrial ecology profitable through its Sorbster media. This ongoing series highlights new companies from across the country that embody the creativity and resilience seen in today's entrepreneurs, but haven't become a household name...yet.

MAR Systems Welcomes Nancy Sherwood

In October, MAR Systems welcomed Nancy S. Sherwood as Vice President of Technology. Nancy has 30 years of senior-level experience in the water industry with both R&D and product development.

Prior to coming to MAR Systems, Nancy worked for Kemira Chemical, Nalco Company and the Calgon Corporation.

Her experience and industry knowledge will be extremely valuable in 2011 and beyond as MAR Systems continues product development on its Sorbster media.

MAR Systems Named as One of 70 Top Innovators

Award Recognizes Cutting Edge Private Companies Driving the Future of Innovation

MAR Systems has been selected as one of 70 Top Innovators at the annual New England Venture Summit by youngStartup Ventures. The list of privately held companies recognizes those that play a leading role in innovation for the Technology, Life Sciences and Clean-tech sectors.

As one of the Top Innovators chosen, Tony Lammers, CEO of MAR Systems presented the company at the exclusive 2010 **New England Venture Summit** on December 15th at the Hilton Boston Dedham, where a select group of over 400 entrepreneurs, investors, and corporate developers gathered to be the first to meet this next wave of leading edge companies.

MAR Systems Installs Another Pilot

This week, MAR Systems installed a pilot unit at a chemical manufacturer in Ohio, which needed to meet new permitting regulations.

The Pilot Program is built around our clients' needs, and allows better awareness for the design of a permanent solution. The Pilot is directly scalable to full scale commercial operations.
