BusinessWeek Names MAR Systems One of America's Most Promising Startups

BusinessWeek recently named MAR Systems one of "America's Most Promising Startups" for making industrial ecology profitable through its Sorbster media. This ongoing series highlights new companies from across the country that embody the creativity and resilience seen in today's entrepreneurs, but haven't become a household name...yet.

[Read more about MAR Systems and the water contamination solution that caught the attention of BusinessWeek.](#)

MAR Systems Preparing for Third Pilot Installation

Later this year, MAR Systems will install its third pilot unit for the removal of mercury and other heavy metals.

The Pilot Program is built around our clients' needs, and allows better awareness for the design of a permanent solution. The Pilot is directly scalable to full scale commercial operations.

WEFTEC Poster Presentation a Success for MAR Systems

MAR Systems presented a poster at this year's WEFTEC 2010 Conference in New Orleans, Louisiana. The poster, **Mobile Development Unit: On-site Pathway to Hg and Other Metals Removal**, was on display Monday, Oct. 4 from 8:30 a.m. - 12 p.m.

The poster highlighted MAR Systems' FASTER, CHEAPER, GREENER water treatment solution, which takes clients from initial water testing to full-scale commercial removal of mercury, selenium, arsenic and other metals utilizing MAR's Sorbster media.

MAR Systems Highlights its "Send Us Your Water Program"

The following post card was recently sent to nearly 500 individuals responsible for reporting their company's mercury or selenium levels to the EPA. The post card highlights how quickly companies can obtain and maintain compliance with local, state and federal water pollution regulations.
